INDICATIONS FOR USE, DOSAGE, ROUTES OF ADMINISTRATION AND TARGET SPECIES

It is a temporary marker for skins and hides, dry or wet. As a cosmetic product, no dosage is required; apply a sufficient amount for the identification of animals and/or hides. Recommended for use in cattle, horses, goats, sheep, swine, dogs, and cats.

STORAGE CONDITIONS

Store in a cool, dry place at no more than 30 °C, away from sunlight.
Keep out of reach of children and domestic animals.

OBSERVATIONS:

The components are insoluble in water and saponifiable, so a detergent soap is required to remove the product. Consult a Veterinarian.
Veterinary use only.

For exclusive use by the Veterinarian.
