

AVEFENICOL ST®

REGISTRATION: Q-0209-085

Tablets

Broad-spectrum antibacterial.

FORMULA

Each tablet contains:

Sulfamethoxazole	0.100 g
Trimethoprim	0.020 g
Excipient q.s.	1 Tableta

Use in species

Fattening birds, laying birds, fighting birds, and ornamental birds.

INDICATIONS

Broad-spectrum antibiotic indicated for the control of respiratory, digestive, and septicemic diseases in broiler, laying, fighting, and ornamental birds caused by Gram-positive and Gram-negative organisms susceptible to the formula.

DOSAGE:

One to two tablets per 1 L of drinking water, or directly administered orally: ¼ to ½ tablet per kg of bird body weight, daily for 3 to 5 days.

ROUTE OF ADMINISTRATION: Oral

WITHDRAWAL PERIOD:

Do not administer this product within 7 days before slaughter of animals intended for human consumption. In laying hens, the withdrawal period for eggs is 10 days after the last application.

STORAGE CONDITIONS:

Store the product in a cool, dry place protected from light. Keep out of reach of children and domestic animals.

WARNINGS:

Do not administer to dehydrated animals or those with metabolic acidosis. Urinary acidifying agents increase the risk of sulfonamide crystallization in urine. Do not administer to animals sensitive to the ingredients of the formula. Consult a Veterinarian. Veterinary use only. Sale requires a medical prescription.

For exclusive use by the Veterinarian
